YOGA CERTIFICATE COURSE – MATERIAL

Introduction:-

Yoga is essentially a spiritual discipline based on an extremely subtle science which focuses on bringing harmony between mind and body. It is an art and science for healthy living. The word "Yoga" is derived from the Sanskrit root ‘yuj’ meaning "to join", "to yoke" or "to unite". According to Yogic scriptures, the practice of Yoga leads to the union of an individual consciousness with the universal consciousness. According to modern scientists, everything in the universe is just a manifestation of the same quantum firmament. One who experiences this oneness of existence is said to be "in Yoga" and is termed as a yogi who has attained a state of freedom, referred to as mukti, nirvāna, kaivalya or mokṣa. "Yoga" also refers to an inner science comprising of a variety of methods through which human beings can achieve union between the body and mind to attain self-realisation. The aim of Yoga practice (sādhana) is to overcome all kinds of sufferings that lead to a sense of freedom in every walk of life with holistic health, happiness and harmony. Brief history and development of Yoga The science of Yoga has its origin thousands of years ago, long before the first religion or belief systems were born. The seers and sages carried this powerful Yogic science to different parts of the world including Asia, the Middle East, northern Africa and South America. Interestingly, modern scholars have noted and marvelled at the close parallels found between ancient cultures across the globe. However, it was in India that the Yogic system found its fullest expression. Agastya, the saptarishi, who travelled across the Indian subcontinent, crafted this culture around a core Yogic way of life. Yoga is widely considered as an "immortal cultural outcome" of the Indus Saraswati Valley Civilisation - dating back to 2700 BC - and has proven itself to cater to both material and spiritual upliftment of humanity. A number of seals and fossil remains of Indus Saraswati Valley Civilisation with Yogic motifs and figures performing Yoga sādhana suggest the presence of Yoga in ancient India. The seals and idols of mother Goddess are suggestive of Tantra Yoga. The presence of Yoga is also available in folk traditions, Vedic and Upanishadic heritage, Buddhist and Jain traditions, Darshanas, epics of Mahabharata including Bhagawadgita and Ramayana, theistic traditions of Shaivas, Vaishnavas and Tantric traditions. Though Yoga was being practiced in the pre-Vedic period, the great sage Maharishi Patanjali systematised and codified the then existing Yogic practices, its meaning and its related knowledge through Patanjali's Yoga Sutras. After Patanjali, many sages and Yoga masters contributed greatly for the preservation and development of the field through well documented practices and literature. Yoga has spread all over the world by the teachings of eminent Yoga masters from ancient times to the present date. Today, everybody has conviction about Yoga practices towards prevention of diseases, and promotion of health. Millions of people across the globe have benefitted by the practice of Yoga and the practice of Yoga is blossoming and growing more vibrant with each passing day. The Fundamentals of Yoga Yoga works on the level of one's body, mind, emotion and energy. This has given rise to four broad classifications of Yoga: Karma Yoga where we utilise the body; Jňāna Yoga where we utilise the lighter mind; Bhakti Yoga where we utilise the emotion and Kriyā Yoga where we utilise the energy. Each system of Yoga we practice falls within the gamut of one or more of these categories. Every individual is a unique combination of these four factors. Only a Guru (teacher) can advocate the appropriate combination of the four fundamental paths as it is

necessary for each seeker. All ancient commentaries on Yoga have stressed that it is essential to work under the direction of a Guru. Traditional schools of Yoga The different philosophies, traditions, lineages and Guru-shishya paramparas of Yoga led to the emergence of different traditional schools. These include Jñāna Yoga, Bhakti Yoga, Karma Yoga, Pātañjala Yoga, Kuṇḍalini Yoga, Haṭha Yoga, Dhyāna Yoga, Mantra Yoga, Laya Yoga, Rāja Yoga, Jain Yoga, Bouddha Yoga etc. Each school has its own approach and practices that lead to the ultimate aim and objectives of Yoga. Yogic practices for health and wellness The widely practiced Yoga sadhanas are: Yama, Niyama, Āsana, Prāṇāyāma, Pratyāhāra, Dhāraṇā, Dhyāna, Samādhi, Bandhās and Mudrās, Ṣaṭkarmas,Yuktāhāra, Mantra-japa,Yukta-karma etc. Yamas are restraints and Niyamas are observances. These are considered to be pre-requisites for further Yoga practice. Āsanas, capable of bringing about stability of body and mind, "kuryattadāsanam- sthairyam", involve adopting various psychophysical body patterns and giving one an ability to maintain a body position (a stable awareness of one's structural existence) for a considerable length of time. Prānāyāma consists of developing awareness of one's breathing followed by willful regulation of respiration as the functional or vital basis of one's existence. It helps in developing awareness of one's mind and helps to establish control over the mind. In the initial stages, this is done by developing awareness of the "flow of in-breath and out-breath" (śvāsa-praśvāsa) through nostrils, mouth and other body openings, its internal and external pathways and destinations. Later, this phenomenon is modified, through regulated, controlled and monitored inhalation (śvāsa) leading to the awareness of the body space getting filled (pūraka), the space(s) remaining in a filled state (kumbhaka), and it getting emptied (recaka) during regulated, controlled and monitored exhalation(praśvāsa). Pratyāhāra indicates dissociation of one's consciousness (withdrawal) from the sense organs which connect with the external objects. Dhāranā indicates broad based field of attention (inside the body and mind) which is usually understood as concentration. Dhyāna (meditation) is contemplation (focused attention inside the body and mind) and Samādhi (being constant). Bandhas and Mūdras are practices associated with Prāṇāyāma. They are viewed as the higher yogic practices that mainly adopt certain physical gestures along with control over respiration. This further facilitates control over mind and paves the way for a higher Yogic attainment. However, practice of dhyāna, which moves one towards self-realisation and leads one to transcendence, is considered the essence of Yoga Sādhana. Ṣaṭkarmas are detoxification procedures that are clinical in nature and help to remove the toxins accumulated in the body. Yuktāhāra advocates appropriate food and food habits for healthy living. Mantra Japa: Japa is the meditative repetitions of a mantra or a divine consciousness. Mantra Japa produce positive mental tracts, helping us to gradually overcome stress. Yukta-karma advocates right karmas or actions for a healthy living.

HOW YOGA CAN HELP:

Yoga is essentially a path to get liberated from all the bondages. However, medical research in recent years has uncovered many physical and mental benefits that Yoga offers, corroborating the experiences of millions of practitioners. A small sampling of research shows that:

- Yoga is beneficial for physical fitness, musculoskeletal functioning and cardio-vascular health.
- It is beneficial in the management of diabetes, respiratory disorders, hypertension, hypotension and many life style related disorders.
- Yoga helps to reduce depression, fatigue, anxiety disorders and stress. Yoga helps to regulate menstrual and menopausal symptoms. In essence, Yoga is a process of creating body and mind that are stepping-stones, not hurdles, to an exuberant and fulfilling life.

COMMON YOGA PROTOCOL

While addressing the 69 th session of United Nations General Assembly (UNGA) on September 27, 2014, the Honourable Prime Minister of India Shri Narendra Modi urged the world community to adopt an International Day of Yoga. “Yoga is an invaluable gift of ancient Indian tradition. It embodies unity of mind and body; thought and action; restraint and fulfilment; harmony between man and nature and a holistic approach to health and well-being. Yoga is not about exercise but to discover the sense of oneness with ourselves, the world and Nature. By changing our lifestyle and creating consciousness, it can help us to deal with climate change. Let us work towards adopting an International Yoga Day," Shri Modi said. On December 11, 2014, the 193 member UNGA approved the proposal by consensus with a record 177 co-sponsoring countries a resolution to establish 21 June as "International Day of Yoga". In its resolution, the UNGA recognised that Yoga provides a holistic approach to health and well-being and wider dissemination of information about the benefits of practicing Yoga for the health of the world population. Yoga also brings harmony in all walks of life and thus, is known for disease prevention, health promotion and management of many life style related disorders. First International Day of Yoga st The Ministry of AYUSH successfully organised 1 International st Day of Yoga (IDY) on 21 June, 2015 at Rajpath, New Delhi.
