**Annual reports highlighting the programmes undertaken by the teachers 2020-2021**

*FDP, MDPs, professional development, administrative training programs*

*Faculty Development Programs (FDPs) and Management Development Programs (MDPs) play pivotal roles in enhancing the skills and knowledge of both teaching and non-teaching staff within educational institutions.*

*Faculty Development Programs primarily focus on educators, providing them with opportunities to engage in continuous learning, update their teaching methodologies, and stay abreast of the latest advancements in their respective fields. These programs often include workshops, seminars, and training sessions that aim to improve teaching effectiveness, research capabilities, and overall professional development.*

*On the other hand, Management Development Programs cater to both teaching and non-teaching staff by imparting managerial and leadership skills. These initiatives are designed to enhance organizational efficiency, strategic planning, and interpersonal communication. Non-teaching staff benefit from MDPs by acquiring skills related to administration, project management, and team collaboration, contributing to the overall smooth functioning of the institution.*
